

Nutrient Premixes

Precision Nutrition, Delivered

Prinova is your trusted partner for high-quality, precision nutrient premixes and blends. With over 45 years of experience, we are dedicated to providing innovative and effective solutions to support your product development goals' whether that is meeting a nutritional claim, enhancing your fortification or driving your operational efficiencies.

Whether for food and beverage, supplements or sports nutrition, we offer more than a blend of ingredients – they are a fusion of our diverse expertise and resources specific to your consumer's needs.

Global Leader in Ingredient Sourcing

With market-leading positions in key categories and a broad product portfolio, we can help you drive efficiencies in your supply chain. The relationships we have built over the past three decades mean we can offer our customers stability and reliability – even in the most volatile markets.

End-Use Applications

Equipped with decades of expertise, and knowledge of the most popular categories, we help you create a great-tasting and precisely formulated blends for a wide array of applications including:

Bars

Food

Beverages

Infant Nutrition

Cereal

Sports & Lifestyle Nutrition

Dairy & Dairy Alternatives

Nutrient Premixes

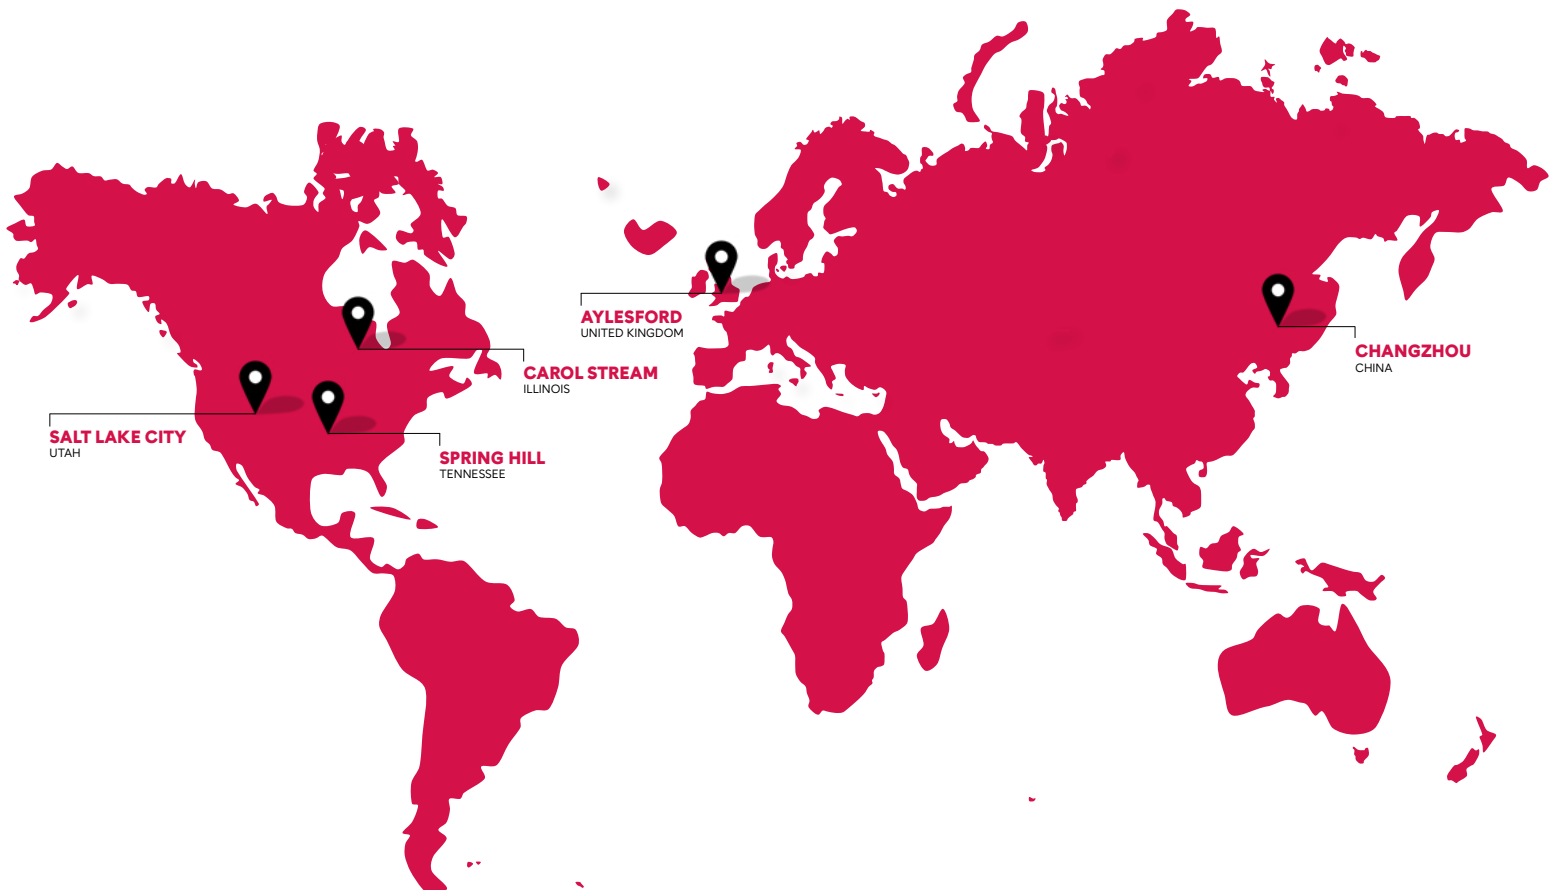

Comprehensive Quality Management

Prinova's premix facilities meet the highest standards, and we take great pride in our global accreditations and certifications. These recognitions demonstrate our commitment to premix quality management, compliance, and food safety. Our dedication to meeting and exceeding food industry quality assurances has resulted in certifications from organizations, including FSSC, BRC and SMETA.

Global Blending Footprint

Our strategic global locations allow us to operate a worldwide supply chain, while addressing your needs for just-in-time deliveries and safety stocks. With five manufacturing facilities across three continents, we give you global reach with local market knowledge.

Market Ready Blends Advanced Hydration
